Dependency on external actors; Low self-efficacy among youth

Global Minimum

ACTION: Inspire curiosity,
self-efficacy + problem-
solving among youth

Uncollected trash in Lagos, Nigeria, most of which can be recycled

WeCyclers

ACTION: Find unmet market needs + use science to fill them

Surveying oil spill damages in Louisiana

Public Lab

ACTION: Make it easy to
do science that is
inexpensive, DIY, + local

3 Ways Social Innovators Are Making Science Sustainable

1. Inspire curiosity, self-efficacy, and problem-solving among youth
2. Find unmet market needs and use science to fill them
3. Make it easy to do science that is inexpensive, DIY, and local
